

Blockout Blinds

Block out blinds are the ideal solution for any area of the home that you want privacy, to block out light, and reduce heating and cooling costs. Block out blinds come in a range of different fabrics to perfectly suit your home.

For privacy and peace of mind in the evening, pair the screen blind with your choice of blackout blind. Motorise your blinds and you will have the perfect balance of convenience and privacy.

- Composition: 100% Polyester with Acrylic Backing
- PVC Free | Lead Free
- Nominal Weight: 465 +/- 5%gsm

NOTE: Colour variances may occur between fabric production batches. These variances are within industry tolerances.

D30 Silent Rail

The D30 silent rail is designed to be added to the bottom of the blinds to reduce the noise created by movement, commonly caused by heating and cooling systems when bumping against window frames. Back and front slots allow for allocation of the interchangeable bubble seal or fabric brush.
