innovative,
custom-made
solutions for homes
and businesses.**

For more than 30 years, our family-owned business has been committed to delivering high-quality, custom-made products backed by exceptional customer service.

What began as a one-man operation in Melbourne's inner north has grown into a trusted company with a team of more

than 20 employees servicing customers across Victoria, Tasmania and New South Wales.

Our reputation has been built on quality craftsmanship, innovation and reliable service. We take pride in helping homeowners and businesses find the right solution, and we look forward to continuing to serve our community for many years to come.

Domestic Roller Shutters

Domestic Roller Shutter

Looking for a solution that enhances comfort, privacy and security while improving the appearance of your home? Our automated roller shutters with smart app control allow you to easily manage light, privacy and indoor comfort throughout the day. Designed for everyday living, they help keep your home cooler in summer and warmer in winter by providing an additional layer of insulation. They can also help reduce outside noise, improve security and contribute to lower energy costs. Available in a range of colours to complement your home, these shutters offer a practical and stylish way to create a more comfortable living environment all year round.

Colour Options

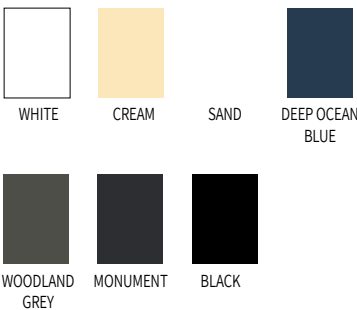

HDF Roller Shutters

Widespan HDF Roller Shutters

Widespan HDF Roller Shutters are specifically engineered for larger openings, making them the ideal choice for windows, alfresco areas and spaces wider than 3 metres. Featuring smart automated operation, they deliver superior strength and stability with minimal flex across wide spans. Their high-density foam-filled construction provides excellent insulation, helping improve energy efficiency and indoor comfort throughout the year. Designed to withstand demanding conditions, they offer enhanced security, increased structural strength and Cat 3 Cyclone-rated performance, providing reliable protection and peace of mind in high-wind environments.

Colour Options

Commercial Roller Shutters

See Through Roller Shutters

Commercial Roller Shutters

When it comes to protecting your commercial property, Security Plus Shutters, Doors & Blinds offers a range of commercial roller shutters designed to deliver reliable security, durability and ease of operation. Available in both 40mm and 77mm profiles, these shutters can be customised to suit a wide variety of applications, including shopfronts, offices, warehouses, factories and commercial premises.

Built to withstand the demands of busy commercial environments, our roller shutters provide an effective barrier against unauthorised access while maintaining a professional appearance. With a range of operating options and custom sizing available, they offer a practical, long-lasting solution for businesses seeking dependable security and performance.

Bushfire Rated Shutters

If your home is located in a bushfire-prone, rural, semi-rural or heavily vegetated area. Fire Rated Shutters provide an added layer of protection and peace of mind. Manufactured from high-quality aluminium using a precision extruded roller shutter profile, these shutters are specifically designed to help protect your property in high-risk environments.

Rated to BAL-40 (Bushfire Attack Level 40), our Fire Rated Shutters have been independently tested and approved by the CSIRO and comply with Australian Bushfire Construction Standards. Combining proven fire resistance with the security, privacy and durability of a roller shutter system, they offer a practical solution for homeowners seeking greater protection in bushfire-prone regions.

See-Through Roller Shutters

Enjoy the perfect balance of visibility, natural light and protection with our See-Through Roller Shutters. Featuring durable aluminium slats with clear or tinted UV-stabilised polycarbonate inserts, they provide security and weather protection without completely enclosing your space.

Ideal for patios, alfresco areas, balconies, cafés and outdoor entertaining spaces, they provide protection from the elements without permanently enclosing the area. When required, the shutters can be fully lowered to create a secure and sheltered environment, helping you make the most of your outdoor living space in all weather conditions.

Designed for both style and practicality, See-Through Roller Shutters offer a versatile solution for homeowners and businesses seeking greater comfort, protection and year-round usability.

Colour Options

Security Doors

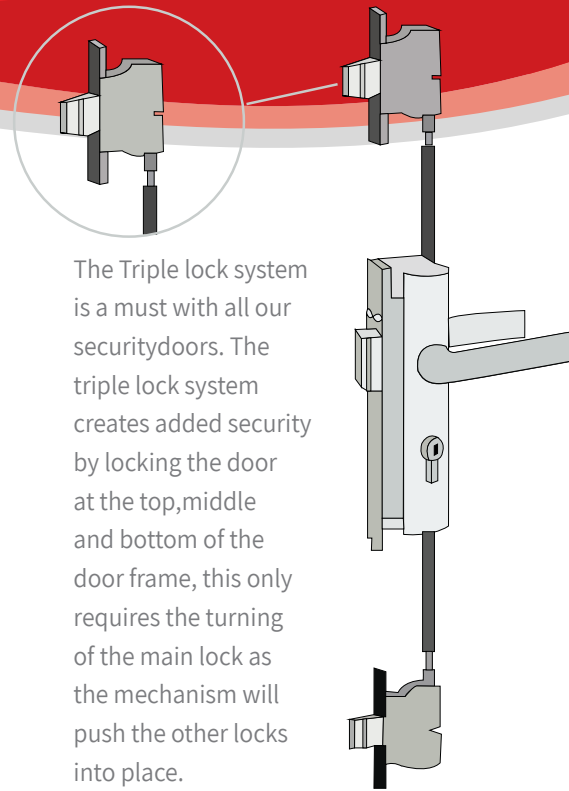

Invisi-Gard® Security Doors

Protect your home without compromising on style, views or airflow with Invisi-Gard® Security Doors. Featuring premium marine-grade 316 stainless steel mesh and a patented pressure retention system, Invisi-Gard® delivers outstanding strength and security without the need for unsightly grilles or bars.

Custom-made to suit your home, Invisi-Gard® is available in hinged, sliding and stacker door configurations, with a wide range of powder-coated frame colours to complement your property. The precision-engineered mesh allows fresh air and natural light to flow through while helping keep intruders and insects out.

Extensively tested to Australian Standards, Invisi-Gard® Security Doors provide superior protection, durability and peace of mind, making them the ideal choice for homeowners seeking premium security with a sleek, modern appearance.

The Triple lock system is a must with all our security doors. The triple lock system creates added security by locking the door at the top, middle and bottom of the door frame, this only requires the turning of the main lock as the mechanism will push the other locks into place.

Dynamic impact Tested The patented Extreme Grip Protection retention system allows for screens to absorb over 10 times the impact energy required by Australian Standards

Knife Sheer Tested Successfully repels intruder attacks using knives and similar bladed tools

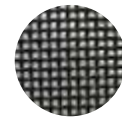

Jemmy Tested Tested to withstand jemmy attacks from levers, such as large screwdrivers, used to apply large amounts of torque to locks and hinges

Rated BAL-40 in areas from BAL-LOW up to BAL-40.

Invisi-Scape Grille

Emergency Escape Screens

Invisi-Scape® Emergency Escape Security Screens offer a simple keyless escape method in the event of a fire or an emergency.

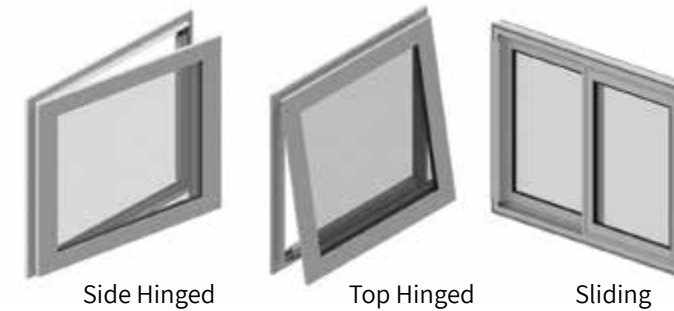

The need to escape through a window is one that we hope you will never require, however with the Invisi-Scape® System you have confidence in not only additional security but also the peace of mind of egress in an emergency. An additional benefit of Invisi-Scape® screens is the ease of cleaning.

Screen Release Lever

The quick and easy “Press to Release” mechanism allows you to get out quickly in the event of an emergency.

Simply press the lever to unlock and push open the screen in one smooth and easy motion. The handle releases the screen after only 20° of movement, aiding in a speedy escape when required.

Decorative & Safety Doors

Decorative & Safety Doors

Decorative & Safety Doors

Enhance your home's security, street appeal and individuality with our range of Decorative and Safety Doors. From classic diamond grille designs to sleek contemporary styles and decorative feature doors, we offer solutions to suit both traditional and modern homes.

Available in steel, aluminium and decorative insert designs, our doors can be customised to complement your home's architecture and personal style. With a wide selection of colours, patterns and finishes available, it's easy to create an entrance that is both welcoming and secure.

Designed to provide an additional layer of protection while maintaining visual appeal, our Decorative and Safety Doors offer durability, practicality and peace of mind. Whether you're looking for a timeless security door or a striking statement piece, our range combines security and style to enhance the look and value of your home.

Flywire Doors and Screens

Flywire Doors & Screens

Enjoy fresh air throughout your home while keeping unwanted insects outside with our range of Flywire Doors and Screens. Available in both hinged and sliding door options, as well as custom-made window flyscreens, they provide a practical solution for improving ventilation without compromising comfort.

Designed to allow natural airflow and unobstructed views, our flyscreens help protect your home from flies, mosquitoes and other insects while maintaining a bright, open feel. Ideal for doorways, windows and outdoor entertaining areas, they can be tailored to suit a wide variety of openings and home styles.

Manufactured from quality materials and custom-made for a perfect fit, our Flywire Doors and Screens offer a simple, effective way to enjoy the breeze and make the most of your indoor and outdoor living spaces.

Retractable Screens

Retractable Screens

Retractable Screens are the ideal solution for creating a seamless connection between your indoor and outdoor living spaces while keeping insects outside. Perfect for stacker doors, bi-fold doors and other wide-span openings, they allow fresh air to circulate throughout your home without obstructing views or access.

They are also an excellent choice for doors and windows where there is insufficient space for traditional sliding flywire doors or fixed screens. When not in use, the screen neatly retracts into its housing, providing a discreet and unobtrusive appearance.

Featuring durable aluminium frames available in a range of powder-coated colours and lightweight mesh, Retractable Screens combine style, functionality and convenience. They offer a practical way to enjoy natural ventilation while enhancing the comfort and usability of your home and outdoor entertaining areas.

Plantation Shutters

Plantation Shutters

Plantation Shutters are a timeless window furnishing, favoured by homeowners, architects and interior designers for their elegant style and versatility. Complementing both contemporary and traditional interiors, they provide excellent control of light, privacy and airflow while helping to improve insulation and energy efficiency.

Installed on the inside of your windows, Plantation Shutters are available in premium Paulownia hardwood or durable PVC. Both options offer exceptional durability, low maintenance and long-lasting performance, making them a practical and stylish addition to any home.

Cross-section of Paulownia-Hardwood Louvres

Cross-section of PVC Louvres

Aluminium Louvres

Aluminium Louvres are a stylish and practical solution for improving ventilation, controlling sunlight and enhancing privacy. Their durable, lightweight construction allows fresh air to circulate while helping to protect interiors from rain, debris and harsh sunlight. Corrosion resistant and low maintenance, they are ideal for both residential and commercial applications.

Available in a range of blade sizes and powder-coated finishes, Aluminium Louvres can be customised to complement any architectural style. Optional security and shutter systems provide added strength, protection and controlled access while maintaining a sleek, modern appearance.

Sheer Curtains

Block Out Curtains

Sheer S-Fold Curtains

Sheer S-Fold Curtains are the perfect way to soften natural light while adding elegance, privacy and warmth to your home. Their flowing fabric creates a light, airy feel, enhancing both contemporary and classic interiors without compromising your outlook.

Available in a wide range of colours, textures and fabrics, our custom-made S-Fold Sheer Curtains can be tailored to suit any room and window style. Whether used on their own or paired with blackout curtains or blinds, they provide a sophisticated finish that combines style, comfort and everyday practicality.

Blockout S-Fold Curtains

Blockout S-Fold Curtains are a practical and stylish solution for controlling light, improving privacy and adding a polished finish to your home. Their soft, flowing S-fold design creates a modern look, while the blackout fabric helps reduce external light, making them ideal for bedrooms, nurseries and media rooms.

They also help insulate your space by reducing heat in summer and retaining warmth in winter, improving comfort and energy efficiency. Available in a wide range of colours and fabrics, Blockout S-Fold Curtains combine everyday functionality with a sleek, contemporary appearance.

Screen & Light Filtering Blinds

Blockout Blinds

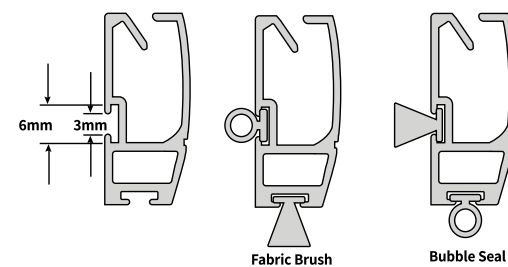

Screen & Light Filtering Blinds

Screen and Light Filtering Blinds are the ideal solution for maintaining natural light while enhancing privacy and reducing glare. Available in a wide range of screen and light filtering fabrics, they soften harsh sunlight and help protect your furnishings from harmful UV rays without completely blocking your view.

Custom-made to suit your windows, all of our indoor roller blinds can be motorised for added convenience. Choose from hard-wired wall switches, 240V or 12V motors, remote control or smart phone app operation to suit your lifestyle.

D30 silent rail

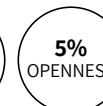

The optional D30 Silent Rail helps minimise movement and noise caused by heating and cooling systems. Featuring interchangeable bubble seals or fabric brushes, it provides quieter operation by reducing contact with window frames.

Blockout Blinds

Blockout Blinds offer maximum privacy, light control and comfort, making them an ideal choice for bedrooms, nurseries, media rooms and any space where reducing light is important. Their opaque fabric helps minimise heat, glare and UV penetration while improving insulation and energy efficiency throughout the year.

Available in a wide range of colours and fabrics, Blockout Blinds can be custom-made to complement any interior. For complete day and night functionality, they are often paired with Screen or Light Filtering Blinds, providing natural light during the day and complete privacy after dark.

Outdoor Blinds

Outdoor Blinds

eZIP®
track blind

Outdoor Blinds

Create a comfortable, year-round outdoor living space with our premium Outdoor Blinds. Available in both **eZip®** and **SlideTrack®** systems, they are ideal for windows, verandas, patios, pergolas and alfresco areas, providing protection from the sun, wind and rain while maintaining fresh airflow and outdoor views.

Manufactured from high-quality mesh or UV-stabilised clear or tinted PVC, our Outdoor Blinds are custom-made to suit your home and lifestyle. Automated operation makes them effortless to use, while heavy-duty aluminium side channels provide superior strength, helping minimise fabric movement and ensuring long-lasting performance in demanding weather conditions.

Window Awnings

Window Awnings

Available as Auto Awnings or Fixed Awnings, our Window Awnings provide an effective way to reduce heat, glare and UV exposure while allowing natural light and cooling breezes into your home. By shading your windows before heat reaches the glass, they help improve indoor comfort and energy efficiency.

Auto Awnings feature a spring-operated self-retracting system for simple, reliable operation. Fixed Awnings are available with metal arms or wire guides and can be operated manually or fully automated using the same motorisation options available across our roller shutters and indoor and outdoor blinds.

Both systems are custom-made in a wide range of colours and premium fabrics to complement any home.

Folding Arm Awnings

Folding Arm Awnings

Extend your outdoor living space with our Folding Arm Awnings, creating generous shade for patios, decks, balconies and alfresco areas. Designed to provide excellent protection from the sun while maintaining an open, spacious feel, they allow you to enjoy outdoor entertaining in comfort throughout the year.

Our premium Sienna Folding Arm Awnings are designed in Italy and engineered for Australian conditions. Available in a wide selection of premium acrylic fabrics and colours, they can be manually operated or fully automated. Custom powder-coated frames complete a stylish, durable and practical outdoor shading solution that complements any home.

Pergolas

Pergolas

Pergolas

Transform your outdoor area into a stylish, year-round living space with an **AluShade Pergola**. Designed to provide the perfect balance of sun, shade and ventilation, the automated aluminium louvre roof allows you to control natural light and airflow at the touch of a button. Whether you're entertaining family and friends or simply relaxing outdoors, an AluShade Pergola creates a comfortable environment in every season while enhancing the beauty and value of your home.

Designed for Australian conditions, **AluShade Pergolas** combine contemporary design with exceptional strength and durability. When the automated louvres are closed, they provide protection from the sun and rain, with integrated gutters directing water away from your outdoor living area. Available in a range of colours and configurations, AluShade Pergolas can be customised with outdoor blinds, lighting and other accessories to create the ultimate outdoor entertaining space.
